

How to Add Your Authorized Charging Card in the 50five App

Follow the next steps to add your authorized charging card:

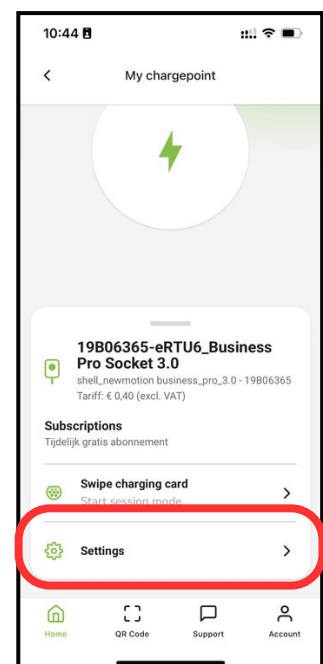

Step 1: Open the 50five app on your phone and tap the My Chargepoint button.

Step 2: Select your chargepoint.

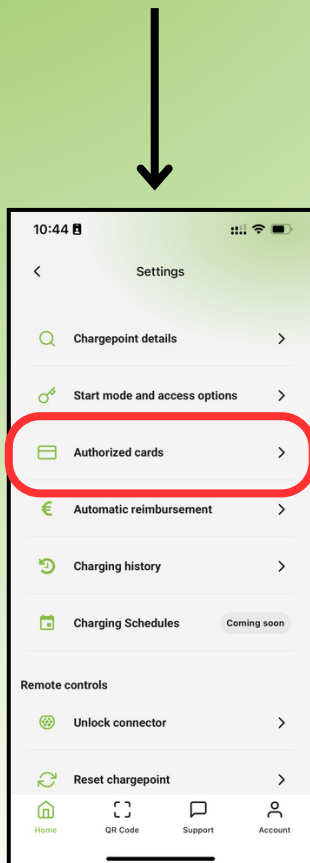

Step 3: Tap the Settings button at the bottom of your screen.

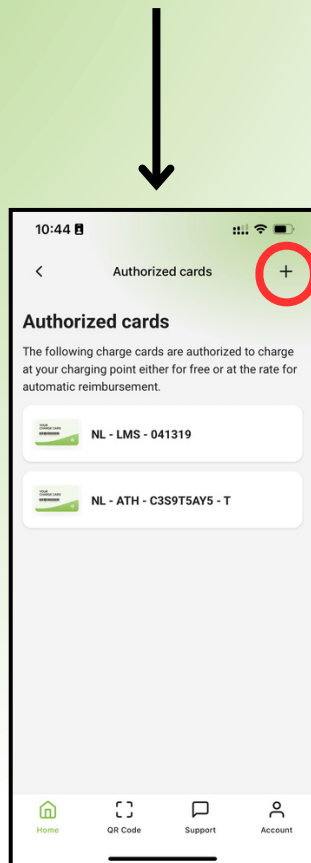

The next steps continue on the following page.

Follow the next steps to add your authorized charging card:

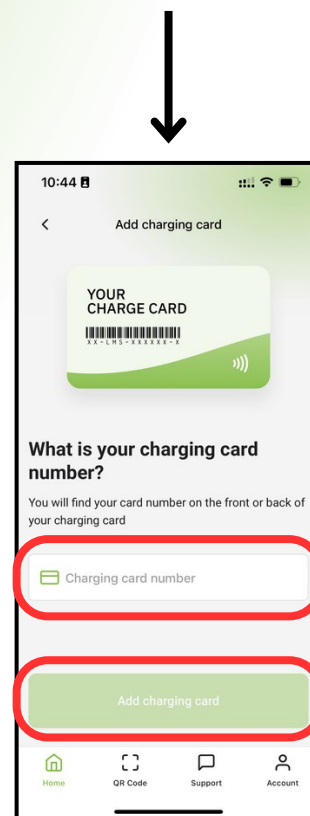

Step 4: Tap on Authorized Cards.

Step 5: In the top-right corner, tap the plus (+) button.

Step 6: Enter your charging card number and press 'Add Charging Card'

Please close the app completely and then reopen it.

Your authorized charging card should now appear under Authorized Cards and is ready to use! 😊

Please note: These are only charging cards that are activated for your charge point. They will not appear in the general charging card menu in the app.

We're continuously working on improving this process.
